Safeguarding at GWJS

Our school Designated Safeguarding Leads are:

Mrs Petchey, Mrs Stolworthy, Mrs Greenwood, Miss Alderton, Mrs Derer and Mrs Burman

Please speak to one of these members of staff if you are worried or concerned about the safety of a child.

If you have a safeguarding concern about a child out of school hours, the number to ring is:

CADS – Children's Advice and Duty Service – 0344 800 8020

Mrs Derer our school Parent Support Advisor and
Mrs Burman and Miss Alderton our school Pastoral Leads and ELSA trained staff are on our school playground every morning from 8:45am. Mrs Derer our school Parent Support Advisor is on our playground every Monday, Tuesday and Friday morning from 8:45am.

Mrs Burman, Miss Alderton and Mrs Derer are always happy to talk to you about any worries or concerns relating to your child at home or any further support we may be able to offer or signpost you to.

ONLINE SAFETY

What Parents & Educators Need to Know about

TIKTOK

13+

(Certain features are restricted to over-18s only)

WHAT ARE THE RISKS?

Adults tend to associate online videos with YouTube – but among teens, TikTok is king. The app provides a stream of short clips tailored to users' interests, based on what they've already watched. Around half of British children use TikTok, and while much of the content is benign, Ofcom considers it the app where youngsters "were most likely to encounter a potential harm".

AGE-INAPPROPRIATE CONTENT

While TikTok's Following feed only displays videos from familiar creators, For You is a collection based on a user's previously watched clips. Most of these videos will probably be inoffensive, but the app could potentially show something unsuitable. If children then engage with this content, more like it will follow. TikTok's guidelines prohibit the sharing of illegal or inappropriate content, but the huge number of uploads means that a small amount inevitably slips through.

CONTACT WITH STRANGERS

With more than 1.5 billion users globally, the potential for contact from strangers on TikTok is high – especially as accounts created by over-16s (or young people using a fake date of birth) are set to public by default. This means that not only is someone's profile visible to everyone else on the app, it also suggests their videos to others and enables anyone to download or comment on them.

BODY IMAGE AND DANGEROUS CHALLENGES

According to Ofcom, most online harms for teens are body image related for girls (promoting unhealthy eating, body shaming and so on) and dangerous stunts for boys. Both are prevalent on TikTok. One extreme example of the latter was the 'blackout' trend, which encouraged users to hold their breath until they passed out from a lack of oxygen. This led to two families filing lawsuits against TikTok over the tragic deaths of their children.

MISINFORMATION AND RADICALISATION

Although the short videos on TikTok tend to be more frivolous than the longer ones on YouTube, clips can still influence impressionable minds in a negative way. Not only is there plenty of dangerous misinformation on TikTok, but Ofcom reports that nearly a third of 12 to 15-year-olds use TikTok as a news source – so you should be wary of misogynistic, racist or conspiracy-themed material shaping how they see the world.

IN-APP SPENDING

TikTok is free, but users have the option to buy TikTok coins, which can be used to purchase gifts for content creators. Coin bundles range from £0.99 to an eye-watering £99; while that may not sound appealing, the app still generated $7.9 billion in user spending in 2023. TikTok's policy is that under-18s can't make in-app purchases, but it's possible to bypass this with a fake birth date.

ADDICTIVE DESIGN

With its constant stream of eye-catching videos, TikTok can be addictive to young brains. In 2024, UK children spent an average of 127 minutes per day on the app: that's twice as much as in 2020. Excessive use can interfere with young people's sleep patterns – often leading to irritability – and distract them from other, healthier activities. The instantly skippable nature of bite-size videos may also impact children's ability to maintain focus.

Advice for Parents & Educators

ENABLE FAMILY PAIRING

Family Pairing allows parents to link their TikTok account to their child's, and control settings remotely. Parents can then turn on Restricted Mode (reducing the chances of a child seeing inappropriate content), set screen-time limits, make accounts private and manage whether their child can send messages – and if they can, to whom. Children can't alter these settings without parental approval.

BLOCK IN-APP SPENDING

If a child is using an iPhone or Android device to access TikTok, you can alter their settings to prevent them from making in-app purchases. We'd recommend enabling this feature, as it can be quite easy for a young person to spend a significant amount of real money buying TikTok coins to unlock more features of the app – sometimes without even realising.

DISCUSS THE DANGERS

If a child wants to use TikTok and you're happy for them to do so, it's good practice to discuss the potential risks. Ensure that they don't share any identifying personal information, and that they know to talk to a trusted adult if they're worried by interactions on the app. With more teens using TikTok for news, it's also worth talking about misinformation and propaganda, and how to identify it.

READ THE SIGNS

If you're concerned that a child is spending too much time on TikTok, or that they've been emotionally affected by something they've seen, it's important to know how to spot the signs. Increased irritability and a lack of concentration are potential red flags, as is failing to complete homework or skipping meals. Remember, the parental controls are there for a reason, and it's never too late to introduce limits.
