Safeguarding at GWJS

Our school Designated Safeguarding Leads are:

Mrs Petchey, Mrs Stolworthy, Mrs Greenwood, Miss Alderton, Mrs Derer and Mrs Burman

Please speak to one of these members of staff if you are worried or concerned about the safety of a child.

If you have a safeguarding concern about a child out of school hours, the number to ring is:

CADS – Children's Advice and Duty Service – 0344 800 8020

Mrs Derer our school Parent Support Advisor and
Mrs Burman and Miss Alderton our school Pastoral Leads and ELSA trained staff are on our school playground every morning from 8:45am. Mrs Derer our school Parent Support Advisor is on our playground every Monday, Tuesday and Friday morning from 8:45am.

Mrs Burman, Miss Alderton and Mrs Derer are always happy to talk to you about any worries or concerns relating to your child at home or any further support we may be able to offer or signpost you to.

ONLINE SAFETY

At The National College, our WakeUpWednesday guides empower and equip parents, carers and educators with the confidence and practical skills to be able to have informed and age-appropriate conversations with children about online safety, mental health and wellbeing, and climate change. Formerly delivered by National Online Safety, these guides now address wider topics and themes. For further guides, hints and tips, please visit nationalcollege.com.

What Parents & Educators Need to Know about MINECRAFT

AGE RESTRICTION PEGI 7

Still the best-selling game of all time, Minecraft is a bastion of creativity and community, with hundreds of millions of players building and crafting in its almost endless world. The popularity of Minecraft among gamers of all ages means it's important to remain informed about the game, including how to play it safely and whether it's suitable for the children in your care. That's why we've created this guide explaining the risks associated with Minecraft and how to ensure a purely enjoyable gaming experience.

WHAT ARE THE RISKS?

SCARY ELEMENTS

While Minecraft can be seen as a kind of 'digital LEGO', certain game modes include creatures accompanied by eerie sound effects. These can be a bit too frightening for some younger players, potentially leading to distressing in-game combat and other encounters – although the combat is quite basic and free from any real depiction of violence.

GRIEFING

Some players in Minecraft take pleasure in deliberately damaging or destroying another person's creations. This behaviour, known as 'griefing', is a form of bullying – it intentionally ruins someone else's experience by erasing hours of their work and forcing them to start over. Many public servers regard griefing as a serious offence and often ban those who engage in it.

ADDICTIVENESS

Minecraft's focus on creativity means that, as with any creative endeavour, it can be easy to get carried away. If your child is finding it difficult to manage their time because they're drawn in by Minecraft's gameplay loop of resource gathering and building elaborate projects, it could have a knock-on effect on their social interactions and schoolwork.

PUBLIC SERVERS AND COMMUNICATIONS

With public servers being so easily accessible in Minecraft, it's highly likely that children will end up chatting with strangers through the in-game text chat. Some servers even place an emphasis on social interaction, actively encouraging communication between players. While there's nothing inherently wrong with this, it does carry certain risks. In addition to the concerns around speaking with strangers online, players who host their own servers may have their IP addresses exposed, posing a further security concern.

ADDITIONAL PURCHASES

Minecraft is available as a free trial on a variety of devices; however, the full game requires a one-off purchase. After that, players have the option to buy additional cosmetic upgrades or subscribe to Minecraft Realms. Realms is an entirely optional subscription service that allows users to run their own private server to play with friends. Without proper supervision, younger players may end up making unintended or excessive purchases.

Advice for Parents & Educators

CHOOSE THE RIGHT MODE

Selecting Creative or Peaceful mode allows children to play Minecraft without having to contend with enemies. It's also a great way for you to get used to playing the game with them, since the difficulty level is far lower. This allows you to work together on a long-term project, creating something special without the threat of enemies and creatures attacking you or damaging your building.

HOST A PRIVATE SERVER

The easiest way to find a safe server for children to play on is to make one yourself. Hosting a server prevents strangers from finding it, unless they've been given its address and password. A private server also lets you control who's allowed to enter and – if necessary – ban anyone who shouldn't be there. This is the closest equivalent to parental controls in Minecraft. Hosting a private server, however, will cost a monthly fee.

TALK ABOUT STRANGERS

At some point in their lives, almost everyone will make contact with a stranger online. Talking to children about online safety, therefore, is essential – as is having a plan for dealing with any hostile or difficult people. It's important that a child knows never to tell a stranger about themselves online and that they should come to you straight away if they do encounter a problem.

RESEARCH CONTENT CREATORS

Much of Minecraft's early stages can be an exercise in frustration for players who don't know where to start. Thankfully, there's a wealth of material online and in video format to help you learn the basics. Just be mindful that some of this content may not be appropriate for children, so you should consider watching it yourself first.

PLAY MINECRAFT WITH YOUR CHILD

As a creative building tool, Minecraft makes it great fun for children to team up and construct vast buildings accompanied by imaginative landscapes, much like working with LEGO or model kits. Playing in a game mode that includes enemies can encourage critical thinking and teamwork; however, you should consider which game mode is appropriate for the child in your care.

Meet Our Expert

Lloyd Coombes is Gaming Editor at the Daily Star, and has worked in games media for more than 6 years. A long-time gaming enthusiast, he is also a parent and therefore a keen advocate of online safety for children of all ages.
