Safeguarding at GWJS

Our school Designated Safeguarding Leads are:

Mrs Petchey, Mrs Stolworthy, Miss Thorpe, Mrs Greenwood, Miss Whing, Mrs Derer, Miss Alderton and Mrs Burman.

Please speak to one of these members of staff if you are worried or concerned about the safety of a child.

If you have a safeguarding concern about a child out of school hours, the number to ring is:

CADS – Children's Advice and Duty Service – 0344 800 8020

Mrs Derer our school Parent Support Advisor and
Mrs Burman and Miss Alderton our school Pastoral Leads and ELSA trained staff are on our school playground every morning from 8:45am. Mrs Derer our school Parent Support Advisor is on our playground every Monday, Wednesday and Thursday morning from 8:45am.

Mrs Burman, Miss Alderton and Mrs Derer are always happy to talk to you about any worries or concerns relating to your child at home or any further support we may be able to offer or signpost you to.

ONLINE SAFETY

At The National College, our WakeUpWednesday guides empower and equip parents, carers and educators with the confidence and practical skills to be able to have informed and age-appropriate conversations with children about online safety, mental health and wellbeing, and climate change. Formerly delivered by National Online Safety, these guides now address wider topics and themes. For further guides, hints and tips, please visit nationalcollege.com.

What Parents & Educators Need to Know about

MENTAL HEALTH MISINFORMATION ONLINE

WHAT ARE THE RISKS?

A research study by Ofcom revealed that children aged 9–15 increasingly use online platforms like TikTok for mental health advice, with 50% relying on social media for information. Unverified medical content online is concerning, with the potential to cause confusion, anxiety, or incorrect self-diagnoses. This guide provides expert strategies to help parents and educators tackle misinformation effectively and ensure safer digital experiences for young people.

POPULAR ONLINE SOURCES

Platforms like TikTok and Instagram are two of the main sources of young people's mental health content. Videos and posts frequently feature unqualified influencers, contributing to misinformation, myths, and oversimplifications. While appealing to young audiences, this unverified content can distort perceptions, and create unrealistic expectations and misunderstandings about mental health conditions.

IMPACTFUL PAST TRENDS

Historically, online mental health misinformation has led to harmful trends, including inappropriate coping strategies or sensationalised symptoms. For example, past TikTok trends on self-harm or anxiety 'hacks' have spread damaging advice, underscoring the risk when misinformation is not promptly addressed or corrected by knowledgeable adults.

RISK OF SELF-DIAGNOSIS

Social media's misleading content encourages young people to self-diagnose complex mental health conditions inaccurately. Misdiagnosis can exacerbate anxiety, cause unnecessary worry, or delay essential professional intervention. This has the potential to escalate manageable conditions into more significant mental health issues requiring comprehensive clinical support.

MISLEADING CLINICAL TERMS

Online trends often include the misuse of clinical terms, such as 'trauma' or 'OCD', making serious conditions seem trivial or inaccurately understood. Such misinformation can diminish empathy, and lead young people to misunderstand mental health complexities, potentially preventing them from identifying real mental health issues in themselves or others.

EVERYONE HAS THAT

LACK OF FILTERS

Social media platforms struggle to filter misinformation effectively, allowing false content to spread widely and quickly. Without proper guidance, young viewers may not discern fact from fiction, potentially internalising inaccurate beliefs about mental health. This can negatively influence their decisions about seeking professional help or managing mental wellbeing.

REPLACING PROFESSIONAL HELP

Frequent reliance on digital content can deter young people from seeking professional mental health care, substituting expert support with unverified online advice. This substitution can prolong issues, complicate recovery, and reduce the effectiveness of future professional interventions, ultimately impacting overall mental health and wellbeing negatively.

Advice for Parents & Educators

MONITOR ONLINE ENGAGEMENT

Regularly review and discuss a young person's online activity, providing appropriate guidance on discerning accurate content. Tools such as parental controls or co-viewing content can help mediate exposure to harmful misinformation, facilitating safer digital habits and informed critical thinking about mental health.

SCHOOL-HOME COLLABORATION

Strengthen collaboration with educators to integrate digital literacy into the school curriculum, emphasising misinformation awareness. Jointly delivered education sessions on identifying and responding to misinformation can significantly improve pupils' ability to critically assess mental health content, supporting their mental wellbeing effectively both online and offline.

IDENTIFY RELIABLE SOURCES

Teach young people to critically evaluate mental health content by checking credentials, source authenticity, and evidence-based information. Encourage them to refer to trusted medical or educational platforms and to consult healthcare professionals for clarification. This reduces young people's reliance on potentially harmful or misleading online sources.

ENCOURAGE OPEN DIALOGUE

Foster a non-judgemental environment where young people feel comfortable discussing online content. Regularly talking about their online experiences and perceived mental health concerns helps clarify misunderstandings, mitigates misinformation, and builds trust, thereby enhancing their resilience and digital literacy. Model situations where you have sought advice from accurate sources and not solely relied on social media for health advice.

Meet Our Expert

Anna Bateman is Director of Halcyon Education Ltd, Director for Wellbeing and Family Services at Leigh Trust, and lead expert for mental health at The National College. Anna specialises in strategic mental health solutions for schools, supporting educators and families to improve resilience, emotional literacy, and overall wellbeing for children across the UK.
